

## **POSITION SPECIFICATION**

**POSITION TITLE:** Electrical Tradesperson – Projects, Peak Gold Mines

**COMPANY OVERVIEW:** New Gold is an intermediate gold producer with cash flow positive operating assets in the United States, Mexico and Australia and development projects in Canada and Chile. The company has a solid platform for profitable growth with a strong financial position and a talented management team and Board of Directors who have the experience to continue to execute on New Gold's growth strategy. The Mesquite Mine in the United States, the Cerro San Pedro Mine in Mexico and Peak Gold Mines in Australia are expected to produce between 380,000 and 400,000 ounces of gold in 2011. The fully-funded New Afton project in Canada is scheduled to add further growth in 2012. In addition, New Gold owns 30% of the world-class El Morro project located in Chile.

New Gold is working towards maximizing shareholder value through diversified production, maintaining a reduced risk profile and enhancing growth potential. The board of directors, the management and the employees of New Gold are committed to achieving this in a socially responsible and sustainable manner.

New Gold Inc. is listed on the Toronto Stock Exchange (TSX) and the New York Stock Exchange (NYSE AMEX) under the symbol NGD.

**LOCATION:** Cobar, Australia

Cobar is home to approximately 5,500 people. It is a well serviced regional town with the necessary infrastructure to support the community with facilities such as a hospital, medical services, public and private schools, child care, library, restaurants, cafes, supermarkets and retail shopping outlets. For the nature lovers, Cobar boasts some beautiful gardens, parks and reserves whilst also providing plenty of sports and recreational activities for the fitness (and social) conscious. Cobar is centrally located in the heart of NSW and provides excellent road links to most of Australia's capital cities.

**OVERVIEW:** We are seeking an experienced and suitably qualified Electrician to enhance our electrical maintenance capabilities.

**SKILLS, QUALIFICATIONS  
AND EXPERIENCE:**

The successful candidate will have the following skills, qualifications and experience:

- Commitment to health, safety and environment
- An electrical trade certificate
- Previous mining / heavy industry experience
- NSW Electrical Supervisors Certificate
- Experience with the following: Hoisting Systems Electrical Infrastructure, FD01 and CV01 Electrical Infrastructure, Main Ventilation Electrical Infrastructure, Main Incoming 11kV lines and Switch Room, Mine Citect Systems
- Ability to communicate effectively across all departments and work as part of a team to achieve the business goals
- Experience in root cause analysis and problem solving
- Self-motivation, with a “can-do” attitude
- Knowledge of project development and implementation, including hands on involvement and contractor management
